final audit day: 21/11/2022

next planned monitoring by 20/01/2024

period of validity: 21/01/2022 – 20/01/2024

## **Annex 1 to certificate no. 424/22**

### **Definition of processing activities**

AiSearch provides several search capabilities on Huawei devices. Users can make use of AiSearch to receive various results based on a given search query: locally (like files / apps or settings) and online (web pages, apps, etc.). Based on what kind of result AiSearch delivers, the user can interact differently. Users might get suggestions for apps to be opened, settings to be changed, web pages to be opened and so on. An overview of past searches (history) and current top searches are also displayed.

The scope of this evaluation is limited to the version of AI Search as it is provided by Aspiegel to users in the European Union (EU)/European Economic Area (EEA).

All functions, tools and services mentioned under "out of scope" are excluded.

The following functions are subject to this evaluation:

- **Determine the access area**  
Determine the server that the user accesses.
  
- **Local Search**  
Searching local files and information within local apps such as calendar and memo
  
- **Online Search**  
Searching app information on AppGallery server
  
- **Web Page Search**  
Providing web page search results from 3rd party search engines
  
- **Hot Words**  
Providing hot topics for users
  
- **App Suggestion**  
Providing app suggestions based on app usage information. There is no personal data collected to servers.
  
- **Analysis and Improvement**  
Product operation activity based on user behavioral data in order to improve user experience

## **Annex 2 to certificate no. 424/22**

### **Excluded processing activities**

The following functions and/or services and/or product-versions are not subject to this evaluation and have not been reviewed by the experts:

1. AI Search as it is provided to users outside the EU/EEA.
  
2. The usage of personal data by Aspiegel or any of their affiliates or 3rd parties for purposes like - but not restricted to:
  - \* any BI application or AI learning
  - \* Analytics and development purposes, including creating aggregated groups based on usage activities
  - \* Targeting and directed marketing activities
  - \* customer relationship management and customer care
  - \* support and communication
  - \* conducting customer surveys and customer complaint handling
  - \* maintenance, problem diagnosis and fixing
  - \* software and system updates
  - \* user identification

This includes also any back-end services and processes which relate to the a.m. operations.
  
3. Third-Party apps that may interact with AI Search
  
4. The usage of the EU-version of AI Search outside of the EU
  
5. Examination of TOMs of any processor or controller apart from Orange data center
  
6. Third Party services and search engines like Bing, Yandex
  
7. Any processing of data of other subjects than Ai Search users (for example data of Aspiegel's employees).
